

divi
From AIS

Cost-efficient monolithic and segmented panel system.

Panel Specifications

- Factory configured as either a monolithic or segmented panel, depending on your aesthetic needs.
- Slim 2" panel thickness for maximum space savings.
- Segmented panel system provides the look of a tiled system for a fraction of the cost.
- Panels ship fully assembled for quick field installation.
- Metal side rails and topcap allow for increased paint finish options.
- Divi panels accept one 16" non-load bearing stack kit. Can be retrofitted to increase panel height.
- Stacks offered in fabric or glass.

Insert Panels

- Insert panels are field replaceable.
- Insert panels available in fabric acoustical, whiteboard and glass.

Connection

- Flexible polypropylene hinge makes installation and reconfiguration quick and easy.
- Configurations can be achieved in 60/120 degree as well as 45/135 degree.

Electrical

- High capacity 6" base raceway.
- Quad access raceway available for greater electrical/data capacity.
- Optional metal septum separates electrical and data.

Accessories

- Rolling privacy screen available.
- Up-mount and radius flipper door units can be used.
- Monitor arms, keyboard platforms & task lighting available.

Miscellaneous

- SCS Indoor Advantage Gold™ certified.
- Lifetime warranty.
- 10-day QuickShip program available.
